

SUPPLY LIST FOR CREATING LIVING BRONZE™ SCULPTURE WORKSHOP

Items you should plan on bringing yourself

- Tape measure: Inches/metric (Sears sells combo units)
- 2-3 Wire loop scraping tools, 6-12"
- Small spatula or blade tool
- Fine wire loop tools
- A small tin can with lid (such as an Altoids container, this is used to place a piece of Scotchbright soaked with lighter fluid) If you already have a system of wiping your tools clean, feel free to bring it instead.

Items you can purchase during the workshop at cost (Sculpture Depot prices)

- Pentel 0.5mm mechanical pencil
- 15-20 lbs. of medium classic clay, tan (@\$2.75/lb)
- 1/3 life-size armature (for 20-26" figure) (\$48)

Items we can provide at no cost if you don't have

- Green Scotchbrite® pad*
- Lighter fluid*

Other

- 30" Proportional Caliper. We have three. You can work faster if you have your own
- 16x20 (slightly smaller or larger OK) drawing pad. If you bring your own pad, it will be easier to save the drawings you generate
